

QCD challenges at the LHC:

from pp to AA

January 18-21, 2016

Taxco, Mexico

International advisory committee

Federico Antinori (CERN,
Switzerland)

Peter Christiansen (Lund,
Sweden)

Paolo Giubellino (CERN,
Switzerland)

Larry MacLerran (BNL, USA)

Andreas Morsch (CERN,
Switzerland)

Jurgen Schukraft (CERN,
Switzerland)

Jun Takahashi (UNICAMP,
Brazil)

TOPICS

- Latest results on pp, pA and AA collisions at the RHIC and at the LHC
- QCD systems with high density of color charges
- QCD inspired MC generators

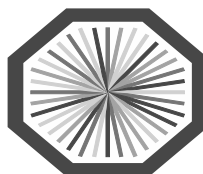

Local organizing committee

Eleazar Cuautle

Peter Hess

Antonio Ortiz

Guy Paicé
