XLVII International Symposium on Multiparticle Dynamics (ISMD2017)

Thursday 14 September 2017

Hadronic final states in high pT interactions (II) (09:00-11:05)

- **Conveners: Ralf Rapp, Charles Gale; Chairperson: Ralf Rapp**

| time | title | presenter |
|-------|--|----------------------|
| 09:00 | Experimental Overview on Heavy Quark Probes in Hot QCD Medium | DA SILVA, Cesar Luiz |
| 09:25 | Jet measurements in heavy-ion collisions with the ATLAS detector | HAVENER, Laura |
| 09:50 | Continuum threshold and Polyakov loop as deconfinement order parameters | LOEWE, Marcelo |
| 10:15 | Electromagnetic radiation in hadronic interactions: from pp to AA collisions | RUAN, Lijuan |
| 10:40 | Heavy flavors in quark gluon plasma: group chasing of the transport coefficients | GOSSIAUX, Pol |
