String theory basics for non-strig-theory people I

Saturday, 4 October 2008 15:30 (1:00)

Abstract content

This course will consist of two parts. In the first part I will present some of the basic ideas of string theory, while in the second I will give a brief introduction to what is arguably the most useful tool derived from string theory to date, the so-called AdS/CFT correspondence.

Summary

Primary author(s) : Dr. CHERNICOFF, Mariano (ICN, UNAM)
