

Long Term Performance Meeting
July, 26th 2018 – 14:00 CEST

**Updates on the FD maintenance and
operations
(reviewing some uncertain topics, to do
list and actions)**

Mariano Del Rio
(reported by Rossella Caruso)

UV cleaning

- it is regular done
- data have to be updated by Mariano on <https://www.auger.unam.mx/AugerWiki/ListOfCleanings>
- we don't even knew that log exist...
- meanwhile the data can be extracted from the TaskLog https://www.auger.org.ar/FD/fd_task_log/task-main.php page where all the maintenance is documented
- TaskLog has to be updated with the last entries;
- TaskLog has to be updated to allow pointing different parts and maintenance;
- Mariano working on this.

Mirror cleaning

- Uncertain situation and politics. Any news?
- Any answer from Jonny? (german mirrors)
- Any answer from Petr? (zcech mirrors)

FD Shift Reports

- Working on that
- The production has been enabled this week on Malargüe but it will take a life to complete, so Mariano is working to get the data, as he planned from the beginning, from Lyon
- almost done

Calibrations during DAQ

- They has been changed by Hermann-Josef.
News on that?

Temperatures inside HEAT

- Do anybody cares about it? Anybody following that
