Shifters on April, May, June, July shifts

- missing shifters / no contribution ... as usual
- no rules, no way to push anybody, but of course nobody wants to cancel the shift
- shift saved on the last minute

New remote stations

- Krakow, Poland
 - already tested during the last shift;
- Ajdovscina, Slovenia
 - connections already tested
 - during the next shift a full night will be tested

News?

Reconstruction back to Malargue

- last shift totally reconstructed from Malargue
- reports almost updated
- last one is incoming, almost done

FD status

- From last shift everything works, but CAEN power supply still have some issues. Normally appear after some power cut.
