# 10th International Workshop on Charm Physics (CHARM 2020)

## Tuesday 01 June 2021

### Production (11:40-13:20)

- Conveners: Dr. Giacalone, Marco; Cheung, Vincent

time	title	presenter
11:40	Study of baryon pair production at BESIII	WANG, Xiongfei
12:00	Triangle singularities in production of X(3872)	HE, Liping
12:20	Charmonium production in proton-proton and proton-lead collisions with ALICE	SÆTRE, Jon-are
12:40	Production and Suppression of X(3872)	INGLES, Kevin
13:00	Quarkonia Results from PHENIX	SMITH, Krista

# Friday 04 June 2021

## **Production (12:10-13:50)**

- **Conveners: Dr. Hentschinski, Martin; Dr. Yook, Youngmin**

time	title	presenter
12:10	Measurement of open charm production in heavy ion collisions with ALICE	BALA, Renu
12:30	Quarkonium production and polarization in high-energy collisions	CHEUNG, Vincent
12:50	Evolution of open charm production with event multiplicity with ALICE	GIACALONE, Marco
13:10	Phenomenology of open and hidden charmed mesons within a chiral approach	WALAA, ESHRAIM
13:30	Photoproduction of hidden-charm pentaquarks	ORTIZ-PACHECO, Emmanuel
