19th International Conference on Hadron Spectroscopy and Structure in memoriam Simon Eidelman

Wednesday 28 July 2021

QCD and hadron structure-A4: GPDs II - (09:00-10:45)

- Conveners: Dr. Courtoy, Aurore

time	title	presenter
09:00	Unraveling light nuclei with deeply virtual Compton scattering processes: from models to event generator	FUCINI, Sara
09:20	On wide-angle photo- and electroproduction of pions to twist-3 accuracy	PASSEK-KUMERICKI, Kornelija
09:40	Accessing pion GPDs through the Sullivan process: is it feasible?	MORGADO CHAVEZ, Jose Manuel
10:00	Exclusive neutral pion electroproduction measurement at Jefferson Lab Hall A experiment E12-06-014	LIN, Po-Ju
10:20	Current Status of ULQ2 Experiment: Proton Radius Measurement with Low-energy Electron Scattering.	HONDA, Yuki
