19th International Conference on Hadron Spectroscopy and Structure in memoriam Simon Eidelman

Wednesday 28 July 2021

QCD and hadron structure-A5: Models for structure - (11:15-13:15)

- Conveners: Dr. Hernández-Pinto, Roger José

| time | title | presenter |
|-------|---|----------------------|
| 11:20 | Good and bad diquark properties and spatial correlations in lattice QCD | FRANCIS, Anthony |
| 11:40 | DEVELOPMENT OF THE GLOBAL CONSTITUENT QUARK MODEL | SUKHORUCHKIN, Sergey |
| 12:00 | nucleon structure within the basis light front quantization | XU, Siqi |
| 12:20 | Nucleon distribution amplitudes in the chiral quark-soliton model | KIM, June-Young |
| 12:40 | Color-octet heavy-quark potential from the instanton vacuum | HONG, Kihoon |
