19th International Conference on Hadron Spectroscopy and Structure in memoriam Simon Eidelman

Thursday 29 July 2021

QCD and hadron structure-B6: Holographic - (11:15-13:15)

- Conveners: Dr. Aguilar, Arlene Cristina

time	title	presenter
11:15	Light front wave functions from AdS/QCD models	VEGA, Alfredo
11:35	Holographic confinement of the solitary quark	DILES, Saulo
11:55	Electromagnetic Pion form factor in a deformed background	MARTIN CONTRERAS, Miguel Angel
12:15	Longitudinal dynamics in light-front holographic QCD and hadron spectroscopy	MONDAL, Chandan
12:35	Direct and Indirect Methods of Vortex Identification in Continuum Theory	DELDAR, Sedigheh
