

Important Facts / Events from April shift to now

2020-04-22 (April shift)

- Loma Amarilla drops the LV/HV channels unexpectedly
- We test the unit by adding 1 bay each day

Between shifts:

- CAEN power supply parts were exchanged from LA to LL to see if the problems moves with this

2020-05-23 (May shift)

- LL CAEN power supply problems. Drop the LV and HV channels for all the bays... (the same than LA)
- The problem was moved from LA to LL
- We test the unit by adding 1 bay each day

Important Facts / Events from April shift to now

2020-05-23 (May shift)

- So, what is the problem?
 - Booster (power supply basically)
 - No spare parts, last one used on February
 - Nunzio already knows and got the spares but then... COVID situation

2020-05-23 (May shift)

- LM radio communications get lost for 1 hour or so
 - Investigating and talking with SD people seems like is coming from some time (micro cuts)
 - Now the communication interruptions becomes more frequent and some times longer (24hs one of the biggest ones)
 - In task leaders hands now (specifications for new equipment)

Important Facts / Events from April shift to now

2020-05-29

- Friday 29, new electrical board was placed on CDAS. Due to this it was necessary to turn off most of the computers.
- On the startup Ronja crashed. Disks corrupted.
 - Ronja main functions: NAGIOS, GLOBUS
 - In order to finish the shift:
 - Since remote connection via grid was not possible, Ruben provided a connection through VPN
 - After succeed we realized that...
 - bgcams were not working
 - nagios were not working
 - the connection were absolutely slow (either from Lecce or from Mariano place in Malargue)
 - Finally ... POWERCUT in Malargue at 11:15 (ART)

Important Facts / Events from April shift to now

2020-06-09

- Ronja recovered on virtual machine, and NAGIOS installed (Ruben and Kai)
 - Julian is working on recovering GLOBUS on
 - Remote shifters are accessing by "bypass" at the moment and the shift is running!

- Thanks to all for the efforts on recovering the services: Julian, Kai and Ruben -

Present shift

- Running with details
 - LM is not present
 - Keeping en eye on LL
