The **Division of Particles and Fields of the Mexican Physical Society** organizes the Annual Meeting (RADPyC). The main objectives of this event are to encourage graduate students and young postdocs to present their research work on high energy physics, and to bring together the high energy physics community in Mexico. Additionally, recognized invited speakers will present some review talks on diverse hot topics in this field. This year, the meeting will be an **ONLINE EVENT**, organized by Benemérita Universidad Autónoma de Puebla (BUAP), Universidad Nacional Autónoma de México (UNAM), Universidad de Sonora (UNISON), and Universidad Autónoma de Chiapas (UNACH). The event will start on Thursday, September 8, and will end on Saturday, September 10.

The scientific program will consist of invited and contributed talks, and a poster session in the following areas:

- Astroparticle physics and Cosmology
- Neutrinos and Dark Matter
- QCD and Hadron Physics
- Physics Beyond the Standard Model
- Instrumentation, computational and accelerators physics
- Electroweak and Flavor Physics
- Quantum Field Theory and Supersymmetry

REGISTRATION

At this time, we request that all interested individuals
register and submit contributions at:

GENERAL ASSEMBLY OF THE DIVISION OF PARTICLES AND FIELDS

September 10 afternoon session
(Not a Public Event)

An order of the day will be released soon with at least the following items in the agenda:

- Medal of the Division of Particles and Fields.
- Annual report on the status of DPyC.
- Status of the Mexican Workshop of Particles and Fields organization.
- Summary of the RADPyC 2022.

We encourage all participants to continue with the safety precautions for this COVID-19 disease from SARS-CoV-2 coronavirus.
