

Collaboration between Mexico and JINR: Scientific opportunities and more

Content

At the beginning of 2023, the Mexican government through CONACyT and the Joint Institute for Nuclear Research, JINR (Dubna, Russia) signed a Joint Declaration of Intent for scientific cooperation between the parties. In May of the same year, the installation and kick-off meeting of the Joint Coordination Committee of CONAHCyT and JINR took place. In this talk I summarize the possibilities for scientific collaboration between Mexican institutions and JINR within and beyond the CONAHCyT intention.
