

XX Mexican School on Particles and Fields 2023

XX Mexican School on Particles and Fields 2023

Monday 30 October 2023 - Friday 03 November 2023

Conference Scientific Programme

The XX Mexican School on Particles and Field will cover the following topics **Beyond the Standard Model** **Accelerator Physics** **QCD and Hadronic Physics** **High energy heavy ion collisions** **Future experiments** **Particle and astroparticle detectors** **Flavour physics** **Machine Learning and Quantum Computing in HEP**
