

Aspects of Gauge-Strings Duality

Monday, 8 November 2010 12:30 (1:00)

Abstract content

In this general talk, I will discuss some recent aspects of the duality between gauge theories and Strings. I will focus most of the presentation in advances related to cases with minimal or no-Supersymmetry. The talk is targeted at a general public of particle physicists, making emphasis on some recent qualitative progress.

Summary

Primary author(s) : Prof. NUNEZ, Carlos (University of Swansea, United Kingdom)

Presenter(s) : Prof. NUNEZ, Carlos (University of Swansea, United Kingdom)

Session Classification : Plenary ST.FT

Track Classification : String theory and field theory
