

The Neutrino Sector in Models with a Fourth Sequential Generation

Friday, 12 November 2010 10:00 (1:00)

Abstract content

We are currently interested in models for neutrino masses with the addition of a fourth chiral generation in the Standard Model. We present here a review of why we consider it an interesting subject and some of the proposals already existing.

Summary

Primary author(s) : Ms. LUJAN PESCHARD, Carolina (DCI-UG)

Co-author(s) : Dr. NAPSUCIALE, Mauro (DCI-UG)

Presenter(s) : Ms. LUJAN PESCHARD, Carolina (DCI-UG)

Session Classification : Poster

Track Classification : Neutrino physics and cosmic rays
