

Modern scattering amplitudes: The Spin-Spinors formalism.

Content

In this work we do a revision of modern on-shell methods using a simple case (Z decay) compared to the traditional Feynman methods vs. Spin-Spinor (Arkani-Hamed - Huang - Huang) formalism.

Summary

Primary author(s) : Mr. HERNÁNDEZ C., Jacobo (BUAP)

Co-author(s) : Mr. REYES PÉREZ, Jonathan (FCFM - BUAP); Mr. LEÓN SILVERIO, Jorge (Benemérita Universidad Autónoma de Puebla)

Presenter(s) : Mr. HERNÁNDEZ C., Jacobo (BUAP)
