XXXIX Annual Meeting of the Division of Particles and Fields

22-23 May, 2025

Pachuca, Hidalgo

Joint meeting with

EIC Latin America 2025

May 21th.

The Division of Particles and Fields of the Mexican Physical Society organizes the XXXIX Annual Meeting (RADPyC). The main goals of this Meeting are to encourage graduate students and postdocs to present their research work on high energy physics and to bring together the community working on this field in Mexico.

In addition, this Meeting includes review talks on diverse hot topics given by invited speakers.

This year RADPyC will have a joint session with the Electron Ion Collider (EIC) Latin America 2025 meeting. This special session will be held the 21th of May.

Scientific Program

The scientific program for RADPyC will include invited and contributed talks, as well as a poster session in the topics that traditionally are worked in Mexico:

- Electroweak and Flavor Physics
- Physics Beyond the Standard Model

- QCD and Hadron Physics
- Instrumentation, Computational and Accelerator Physics
- Astroparticle Physics and Cosmology
- Neutrinos and Dark Matter
- Formal Aspects of Quantum Field Theory
