Fourth Latin American Workshop on Electromagnetics Effects in QCD

Tuesday 25 November 2025

Poster Session - Ninoslav Brali ■ Auditorium (16:30-17:00)

time	title	presenter
16:30	Effect of magnetic fluctuations on the renormalons of a Self-Interacting scalar theory	TOVAR, Julian
16:35	Electric field fluctuations in a self interacting scalar theory	MARTÍNEZ VILLARREAL, Melanie
16:40	Polarization tensor of the photon in the presence of the electric, at order 1-loop.	MARTÍNEZ SÁNCHEZ, Juan Daniel
16:45	Pion and Rho Meson Decay Constants in a Magnetic Background from QCD Sum Rules	MIGUEL, Rosas
16:50	Operator expectation values in a rigidly rotating system at fixed fermion density	GONZÁLEZ, Camilo
16:55	Thermodynamic Properties of Magnetized Quark Matter	FLORES PON, Jose Luis
