

6th Workshop on Nonperturbative Aspects of QCD

Monday 01 December 2025 - Friday 05 December 2025

Federico Santa María Technical University

Conference Scientific Programme

The scientific program includes contributed talks with a length of 25+5 minutes, review lectures, as well as poster sessions in the following topics: **Lattice QCD Schwinger-Dyson & Bethe Saltpeter equations Holographic Ads/QCD models Dynamical Chiral Symmetry breaking Effects of electromagnetic fields on the physics of hadronic matter Dynamical Chiral Symmetry breaking Dark Matter particle searches Non-perturbative QCD, CGC, BK equation, holomorphic QCD models Effective Field Theories**
