# 30th International Cosmic Ray Conference

## Wednesday 04 July 2007

### OG 2.2 - Uxmal + Tulum (Holiday Inn) (10:30-11:55)

time	title	presenter
10:30	Search for gamma-ray emission from Unidentified EGRET sources Located in the Cygnus Region with the MAGIC Telescope	BARTKO, Hendrik
10:42	Study on the energy spectrum of Cygnus Region	WANG, yue
10:54	100 TeV Observations of the Cygnus Region by CASA-MIA	ONG, Rene
11:06	Observations of the first unidentified TeV gamma-ray source (TeV J2032+4130) with the MAGIC telescope	OÑA-WILHELMI, Emma
11:18	Search for TeV gamma-rays from point sources with SPASE2	BAI (*!), Xinhua
11:30	Discovery of a very high energy gamma-ray point like source in Monoceros	FIASSON, Armand
11:42	TeV gamma-rays from Galactic sources: Tycho's SNR, Geminga and Crab Nebula	SINITSYNA, Vera Yurievna
