Saturday 07 July 2007 .....	1
-----------------------------	---

# 30th International Cosmic Ray Conference

## Saturday 07 July 2007

### OG 2.2, OG 2.1 - Uxmal + Tulum (Holiday Inn) (12:05-13:30)

time	title	presenter
12:05	Gamma Ray Pulsar Candidates for GLAST	LEMOINE-GOUMARD, Marianne
12:17	On the GeV-TeV Connection of gamma-ray sources, I. VHE gamma-ray sources and their EGRET counterparts	FUNK, Stefan
12:29	On the GeV-TeV connection of Galactic Gamma-Ray Sources, II. VHE gamma-ray sources without EGRET-detected counterparts and vice versa	TORRES, Diego F.
12:41	Establishing a connection between high-power pulsars and very-high-energy gamma-ray sources	CARRIGAN, Svenja
12:53	Observation of the Supernova Remnant IC 443 with VERITAS	HUMENSKY, Brian
13:05	Observations of microquasars with the MAGIC telescope	RICO, Javier
13:17	The Signature of Large Scale Structures on the Very High Energy Gamma-Ray Sky	CUOCO, alessandro
