

Infill spectrum update

Diego Ravnani 7-1-2011

- Two infill spectrums at $\theta=55^\circ$ and at $\theta=30^\circ$
- Spectrum energy cut $10^{17.5}$ for $\theta=55^\circ$ and $10^{17.2}$ for $\theta=30^\circ$
- No second knee break observed from $10^{17.2}$ eV
