The decay $D^+ \rightarrow K^- \pi^+ \pi^+$

Tuesday, 25 October 2011 16:30 (0:30)

Abstract content

Several topics about this decay are reviewed: its importance, its reduction to the corresponding factors and their calculation. Experimental information and CPV are analyzed too.

Summary

Primary author(s) : DELEPINE, David; RAMÍREZ, Carlos

Presenter(s) : Dr. RAMÍREZ, Carlos

Session Classification : Electroweak and Flavor Physics

Track Classification : Electroweak and Flavor Physics
