

Progress

Pedro Podesta

Kan balam

- Test aliroot Instalation in kan balam
- Some errors but aliroot compile
- When I tried to generate some errors

Some option:

Continue debuggin with CERN people

Compile everything and export

install other compiler an libraries an compile

AliEn

- Follow the tutorial
- After some glitches seem we can connect still to understand how to implement an algorithm and analyze the data
- Preparing the analysis,

High Quality assurance

- Alice Note in progress
- Compare cuts with the default used for first day data.

Ks lambda in Dzero

- Already got the MC
- Need to reprocess with AA algorithm
- Need to find the way to download the data with MB trigger.

Ks lambda in ALICE

- Just start to look for in talks the idea is doing it in AliEn
