

Contents

- P/pi ratio
- offline week: ACORDE
- AliEn

On p/pi ratio.

Andreas will try to generate the spectrum

Offline week

So many thing to develop for each detector:

★Alignment,

★Calibration

★Simulation

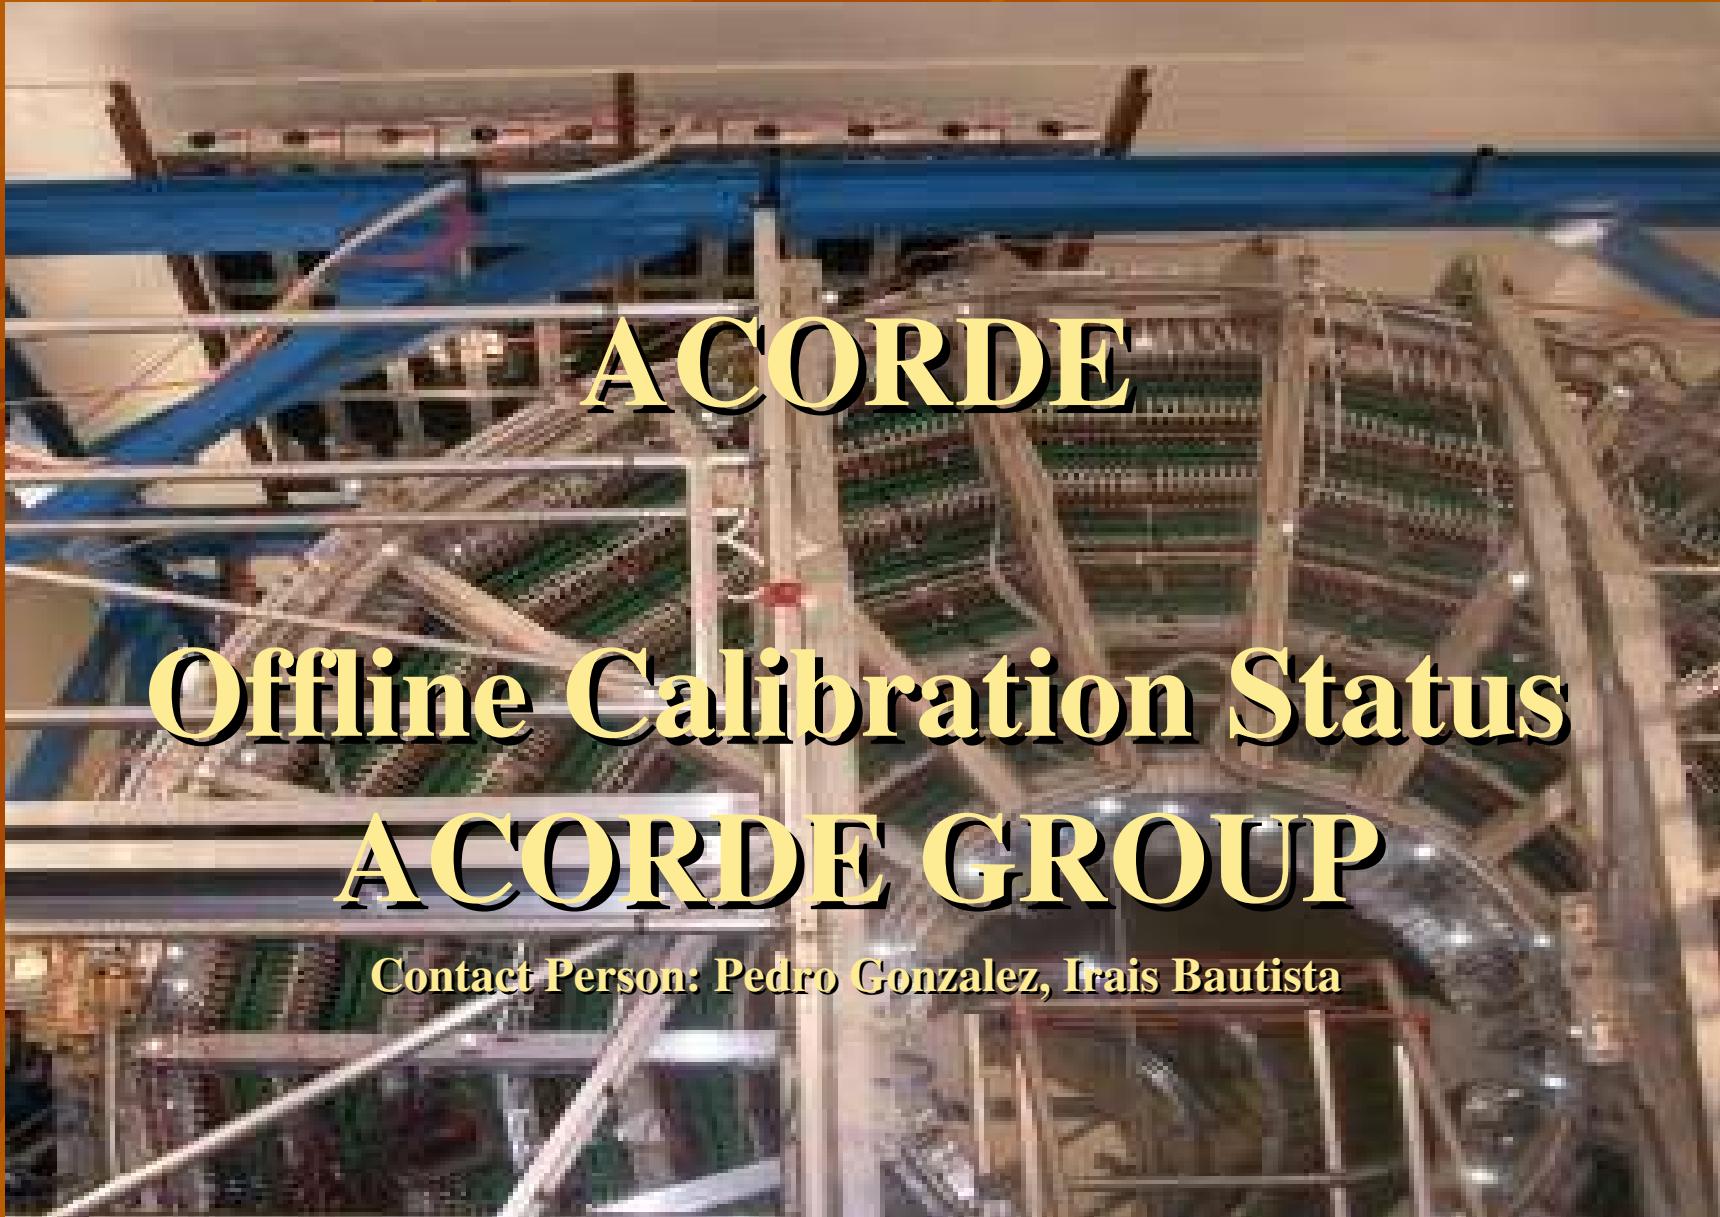

★reconstruction

★Row data dealing

...

...

...

ACORDE

Offline Calibration Status

ACORDE GROUP

Contact Person: Pedro Gonzalez, Irais Bautista

        metaData.SetResponsible("Irais&Pedro");
        metaData.SetComment("This preprocessor stores the array");
    }
}

return 0;
}
```

ACORDE Questions

ACORDE status was presented on Tuesday.

Good comments,

a) again appear.

Bad comments:

a) Is it just a Trigger or is other detector?

b) May be could match track from other detectors and with something in ACORDE!

c) What will do online?

d) Calibration should be online or offline?

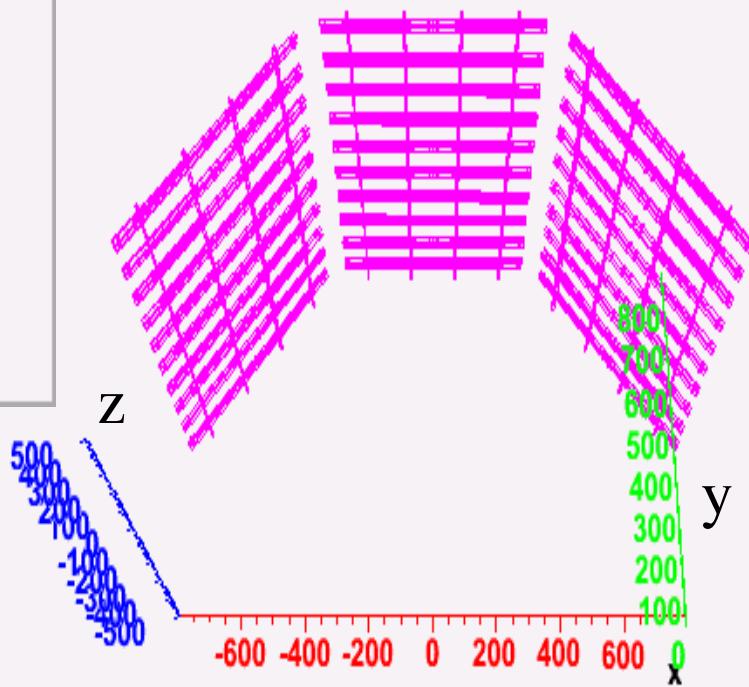

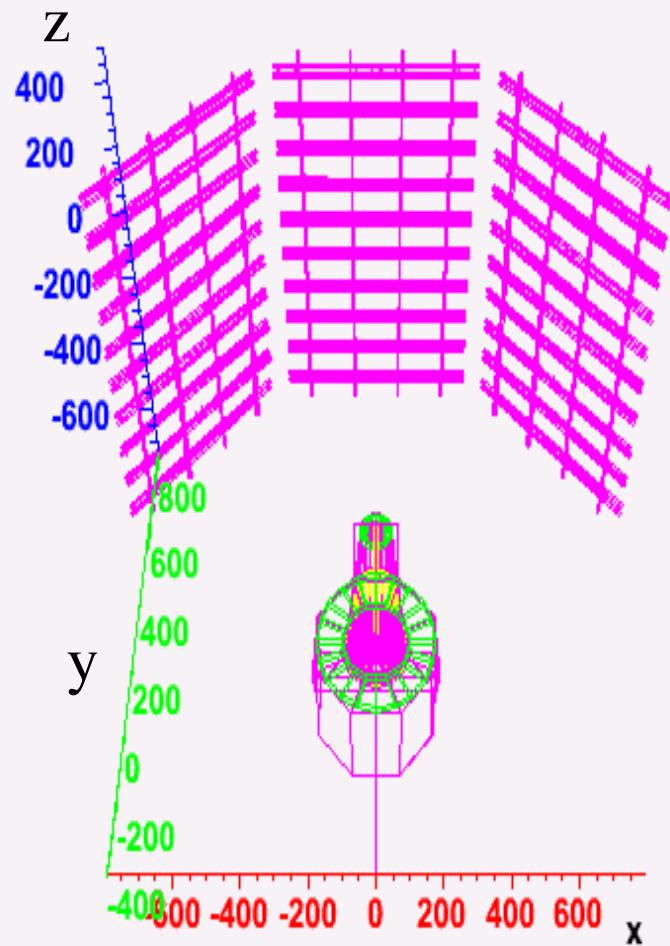

e) What does calibration means?

ACORDE

Dimension

```

const Float_t AliCRTConstants::fgkDepth            = 4420; // cm
```

ACORDE Geometry and Reference system

AliEn

→ Get a certificate

→ Instalation of:

→ AliEn v2-12,

→ Root 15-14-0

→ Geant 3-v1-6

→ AliRoot v4-04-Release,

→ After this you should be able to have a aliensh sesion!

→ Try to follow the tutorial and run the example.

→ Also you can follow the **ALICE Analysis User Guide**, by Andreas Peter.
